

TECHNICAL DATA SHEET

SANTOTRAC® 50 TRACTION FLUID

SANTOTRAC® 50 Traction Fluid is a low viscosity synthetic hydrocarbon-based traction fluid that is especially designed for applications where low to medium film strength is desired. This product has high coefficient of traction and is fortified with a proprietary additive system to enhance its antiwear and extreme load-carrying and high temperature properties. This fluid is approved for use in and around food manufacturing machinery where there is no chance of food contamination. SANTOTRAC® 50 is essentially nontoxic, especially when proper hygienic practices are followed.
